3. INCOME TAX

	May 31, 2011	May 31, 2010
Deferred tax assets consist of:		
Net operating loss carry forward	$ 1,306	$ 95
Start-up costs capitalized for tax purposes	4,493	1,525
Gross deferred tax assets	5,799	1,620
Valuation allowance	$ (5,799)	$ (1,620)
Net deferred tax assets	$ 0	$ 0

No provision for income taxes has been made for the year ended May 31, 2011 and the period from inception (August 14, 2009) to May 31, 2010 due to the company providing a full valuation allowance of the losses sustained for the periods.

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the assessment, management has established a full valuation allowance against the deferred tax assets because it is more likely than not that the deferred tax assets will not be realized.

As of May 31, 2011, the Company had approximately $8,700 of net operating loss carry forwards (“NOL”) for income tax purposes available to offset future federal income tax. The NOL’s may be subject to limitations under Internal Revenue Code 382 should there be a greater than 50% ownership change as determined under the regulations.
