NOTE 3 - INCOME TAXES

As of December 31, 2004, the Company had a net operating loss carry forward for income tax reporting purposes of approximately $31,500 that may be offset against future taxable income through 2024. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carry forwards will expire unused. Accordingly, the potential tax benefits of the loss carry forwards are offset by a valuation allowance of the same amount.
