NOTE 4
PROVISION FOR INCOME TAXES

At December 31, 1999, the deferred tax asset consists of the following:

	1999
Net operating loss carryforwards	$ 1,020,000
Less: valuation allowance	(1,020,000)
	$ --

At December 31, 1999, the Company had federal net operating loss carryforwards in the approximate amount of $3,050,000, available to offset future taxable income through various years from 2010 to 2020. The Company established valuation allowances equal to the full amount of the deferred tax assets due to the uncertainty of the utilization of the operating losses in future periods.
