NOTE 5 - PROVISION FOR INCOME TAXES

The Company provides for income taxes under ASC 740, "Income Taxes." Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax basis of assets and liabilities and the tax rates in effect when these differences are expected to reverse. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations.

The provision for income taxes differs from the amounts which would be provided by applying the statutory federal income tax rate of 34% to the net loss before provision for income taxes for the following reasons:

	Years Ended February 28,	
	2015	2014
Income tax expense at statutory rate	$ (14,197)	$ (314)
Change in valuation allowance	14,197	314
Income tax expense per books	$ -	$ -

Table of Contents

Net deferred tax assets consist of the following components as of:

	February 28, 2015	February 28, 2014
NOL Carryover	$ 14,511	$ 314
Valuation allowance	(14,511)	(314)
Net deferred tax asset	$ -	$ -

Net operating loss carry forwards of $42,680 begin to expire in 2033. The Internal Revenue Service may audit tax returns for six years from their respective filing date.
